

PARTNER WITH EWORKCONNECTIONS

A single point of contact for talent and delivery.

eWorkConnections is the parent platform behind Career Studio and Keel Delivery. Whether you are a recruiter, a candidate, or a delivery partner, there is one direct path to real, verified work.

- 1 Introduce yourself** — share your focus area and goals.
- 2 Get set up** — create your workspace in Career Studio or Keel Delivery.
- 3 Start moving** — matched roles or a tracked project plan, ready to go.

Job Matching

Project Delivery

WHY EWORKCONNECTIONS

One platform. Two ways to put people to work.

- 1 Talent, matched not searched**
Evidence-first AI connects job seekers to roles that genuinely fit, and gives employers a direct line to candidates who are ready to interview.
- 2 Delivery, tracked end to end**
An AI project manager plans, budgets, and reports on every engagement, so leadership always has a current, board-ready view.
- 3 Governed by design**
Enterprise SSO, multi-factor authentication, and a full audit trail run underneath every workspace, from first login to final report.

One relationship, two ways to engage — work with eWorkConnections as a candidate, a hiring company, or a delivery partner, on the terms that fit your business.

eWorkConnections

CAREER STUDIO · KEEL DELIVERY

Talent. Delivery. Connected.

The connected platform behind AI-matched job search and AI-driven project delivery — built for organizations that expect rigor at every step.

● AI-matched job search & hiring

● Portfolio & project delivery tracking

JS

Job Search & Matching

Career Studio

Career Studio replaces scattered job boards and generic advice with a single, evidence-based workspace. Candidates move through a guided Resume-to-Offer journey, while hiring teams and recruiters gain a direct channel to talent that has already been screened for fit.

Built for: *active job seekers building a focused search, and hiring companies or recruiters who want to reach candidates ready to interview.*

CAPABILITIES

- AI-matched job search ranked by fit, freshness, pay, and work mode
- ATS-ready resume and cover-letter drafting grounded in real experience
- Role-specific mock interviews with selectable voice and coaching
- Podcast-style interview practice generated from actual postings
- Job Search Health Score across resume, rhythm, and readiness
- Verified recruiter and hiring-company referral network
- Application tracking with automated follow-up reminders

HOW IT WORKS

Resume Signal → Match Queue →
Apply & Interview

For partners: refer your bench, list open roles, or register as a verified hiring company to reach candidates who are ready now.

KD

Keel Delivery

AI Project & Portfolio Tracker

Keel Delivery is the AI-driven system of record for running projects end to end. It plans work, drafts charters, requirements, and RFPs, tracks budget, schedule, and risk in real time, and rolls every engagement up into board-ready portfolio reporting.

Built for: *internal PMOs, program managers, and delivery partners running client or internal project portfolios.*

CAPABILITIES

- Full lifecycle coverage, from ideation and feasibility through closeout
- An AI project manager that drafts charters, plans, and RFPs
- Structured methodology support across Agile, Waterfall, and hybrid
- Sprint planning, kanban boards, velocity, and burndown tracking
- Live budget, cost breakdown, and contingency tracking against actuals
- Vendor evaluation and RFP scoring built into the workflow
- Board-ready status, steering committee, and one-pager exports

HOW IT WORKS

Ideate & Plan → Execute & Track →
Report & Govern

For partners: plug your delivery team into a client's Keel Delivery instance as a tracked, accountable execution partner.

WHAT POWERS BOTH PRODUCTS

Built on one foundation.

- 1 Evidence-first AI**
Match scores, cost estimates, and recommendations are explainable — grounded in real data, never a black box.
- 2 Security & governance**
Enterprise SSO, multi-factor authentication, and a full audit trail run underneath every workspace.
- 3 One relationship**
Engage as a candidate, a hiring company, or a delivery partner — all through a single account.
- 4 Human support, not just automation**
Peer accountability, coaching, and PM oversight keep every recommendation grounded.
